

# Training and Evaluation Outline Report

Status: Approved

12 May 2017

Effective Date: 08 Feb 2019

Task Number: 12-CTR-1221

Task Title: Manage Theater Rest and Recuperation (R&R) Activities (HRSC)

**Distribution Restriction:** Approved for public release; distribution is unlimited.

**Destruction Notice:** None

**Foreign Disclosure: FD1** - This training product has been reviewed by the training developers in coordination with the Fort Jackson, SC 29207 foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Step Number	Reference ID	Reference Name	Required	Primary	Source Information
	AR 215-1	Military Morale, Welfare, and Recreation Programs and Nonappropriated Funds	Yes	No	
	ATP 1-0.2	Theater-Level Human Resources Support	Yes	Yes	
	FM 1-0	Human Resources Support <a href="http://armypubs.army.mil/doctrine/DR_pubs/dr_a/pdf/fm1_0.pdf">http://armypubs.army.mil/doctrine/DR_pubs/dr_a/pdf/fm1_0.pdf</a>	Yes	No	

**Conditions:** The Human Resources Sustainment Center (HRSC) has deployed with supporting elements to theater. ATP 1-0.2, AR 215-1 and FM 1-0 are on hand. The combatant commander directs the commencement of Rest and Recuperation (R&R). Theater personnel; military, DOD Civilians, and contractors, are proceeding to and returning from R&R areas. Communications between echelons have been established. Requests for information and access to R&R areas are being received from supported units. The HRSC is conducting operations in a dynamic and complex operational environment (OE) against a hybrid threat. Threat capabilities include information gathering, hostile force sympathizers, and terrorist activities in a Chemical, Biological, Radiological, Nuclear and high yield Explosives (CBRNE) environment. Some iterations of this task should be performed in MOPP 4.

**Standards:** Upon arrival of personnel, receive, account for, provide life support and transportation. Brief personnel on the R&R program IAW ATP 1-0.2, AR 215-1 and FM 1-0. Based on the HRSC's authorized strength, 85% of the HRSC's leaders and 80% of Soldiers are present at the training. The HRSC attains 90% on performance measures, 100% on critical performance measures, and 90% on leader performance measures achieving a T, fully trained.

**NOTE:** Leaders are defined as: Director, Deputy Director, Chief HR SGT, Personnel Actions Officer, Senior HR SGT, HR Technician.

**Live Fire:** No

**Remarks:** None

**Notes:** Managing risks is the responsibility of all leaders. Regardless of where the task is conducted, field or garrison, the identification of possible hazards for personnel and equipment is essential to mission accomplishment. Risk management activities are continuous and are performed simultaneously with other operational tasks. Once identified potential hazards must be eliminated or reduced to an acceptable level. Leaders must always consider the local constraints and restrictions for their current operating area.

**Safety Risk:** Low

**Task Statements**

**Cue:** None

## **DANGER**

Leaders have an inherent responsibility to conduct Composite Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

## **WARNING**

Composite Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All Soldiers have the responsibility to learn and understand the risks associated with this task.

## **CAUTION**

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

**Environment:** Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. .

**Safety:** In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine. Safety in performing tasks and within the work/task environment is everyone's responsibility. Supervisors and leaders must ensure a safe and healthful workplace by inspecting the area for hazards and promptly taking action as required to correct hazards. Leaders increase safety by ensuring that Soldiers and Army Civilians are trained and competent to perform their work safely, efficiently, and effectively. Counsel and take action as necessary with Soldiers or Army Civilians who fail to follow safety standards, rules and regulations, including the use of personal protective clothing and equipment, and seatbelts. Leaders should hold all personnel accountable for accidents and property damage, occurring in operations under their direct supervision and control. (See AR 385-10, The Army Safety Program).
